SPECIFICATION

Basic Parameters

Size	16mm x 11.5mm x 3.3mm
Pin Quantity	4 Pin
Connection Type	Strip to Power
Colour	Transparent
Temperature Resistance	105°
Voltage	24 VDC
Current	3.5A
IP Rating	IP20
PCB Width	10mm

Technical Diagram

Connection Instructions

1. Push strip through the gap. *Peel protective paper of back tape*
2. Make strip's edge meet reach the inner wall of connector. *inner wall*
3. Clamp both conductor for piercing PCB one by one. *top side is flat*
4. Connection completed
